

# IDRO2

## Hardener

Code VE7800

Hardener for waterborne sealers and finishes, to use with the following products: Raffaello, Omeg-art, Meta, Epsilon, Sigma and Idrofire.

**Packaging:** 1.0-, 0.5- and 0.2-litre plastic bottles.

## DIRECTIONS

Add IDRO2 to the sealer or finish according to the instructions and the ratio provided in the relevant technical data sheet.

## NOTICE

IDRO2 is not compatible with solvent-based systems.

The product is sensitive to room humidity. Close the bottle after use.

## TECHNICAL DATA

(with room temperature of +23°C and 65% relative air humidity)

|                             |                 |
|-----------------------------|-----------------|
| Appearance                  | clear liquid    |
| Addition ratio:             |                 |
| • Omeg-art – Meta – Epsilon | 10%             |
| • Raffaello - Idrofire      | 20%             |
| • Sigma                     | 25%             |
| Viscosity                   | 45" F4 ± 10" F4 |
| Specific weight             | 1.12 ± 0.01     |
| VOC %                       | 23%             |
| VOC g/lit                   | 259 g/lit       |

**Dispose of excess product and empty containers properly!**

**If the original unopened container is stored in a cool and dry place, the product will keep for at least 12 months.**
